

DIMENSION AND LOADING MANAGEMENT STATEMENT

I, (Name of Owner/Director)

as the Owner/Director of

(company name)

understand, and am committed to following the requirements of the dimension and loading management system through a properly planned and executed program in accordance with Western Australian Heavy Vehicle Accreditation.

(company name)

is committed to ensuring that all loads transported by

(company name)

are loaded according to appropriate and proven load and restraint methods, meet statutory and regulatory requirements and ensuring vehicle combinations are within Dimension & Loading and Mass limits.

This dimension and loading management program is structured on, and adheres to, the requirements of Main Roads WA Accreditation and includes verification that each and every load is loaded correctly and restrained in accordance with the Load Restraint Guide

It is my responsibility to ensure correct mass, axle weights, dimensions and the load is restrained on each and every load is within limits and is recorded.

It is my responsibility to ensure the operators effectively complete the Dimension and Loading documentation and they report any concerns, issues, hazards and potential non compliances to appropriate management personnel.

It is my responsibility to ensure all operators participate in training and education programs provided to ensure they are competent in the Dimension and Loading requirements prior to the commencement of employment.

It is my responsibility to ensure Quarterly, Annual and Random Internal Audits of all aspects of our Accreditations and Records are completed.

This policy applies to all Operators/Employees, Visitors and Sub Contractors of
